

The background is a complex, abstract composition of overlapping geometric shapes and textures. It features a mix of warm tones like gold, brown, and beige, along with cooler shades of grey and blue. The textures appear to be a combination of blurred architectural elements, possibly from a classical building, and abstract, painterly strokes. A large, semi-transparent white circle with a dark border is centered on the page, containing the text.

Ode to Ghisguth.

1-Wandered the Cosmos.

Left the ocean
and wandered the cosmos
until he found a hole
Inside a sun

2-Monstrous Gelatinous Worm.

The deep accompanied him, consoling and blessing him. He was the first of those who do not hate death. A monstrous gelatinous worm of thousands of kilometers that writhes in the center of the stellar black ocean.

3-Devoured and defecated.

I was sent to check a story that the cult of Dagon explained. They believed that, who had the honor of being devoured by Ghisguth, did not die, but went through it and appeared in another place and another time. (Defeated, by the way). A wormhole, maybe?

4-Bloody Gift.

"Venerated Lord," I said, once I came in front of him, "would you do me the honor of eating and swallowing?" "I would gladly do it," he replied, "but such a sacrifice on my part requires payment on your part. You must bring me a corpse of at least fifty different species."

5-Drinking Jellyfish from Antimatter.

As humans kill flies and delusians drink jellyfish from antimatter, I have the lives of creatures that, in my opinion, are not aware. Fifty different: Omega vortex insects, black hole spiders, microscopic whales that live in haunted houses, etc.

6-Will you remind me if I am a Stool Ball?

Grateful for my bloody gift, Ghisguth swallowed me without chewing. Turned into a stool ball, I appeared in another galaxy, three thousand years later.

Oda a Ghisguth.

1-Vagó por el Cosmos.

Salió del océano
y vagó por el cosmos
hasta que encontró un agujero
dentro de un sol.

2-Monstruoso Gusano Gelatinoso.

Los profundos le acompañaron,
consolándole y benerándolo. Él era el primero de aquellos que no aborrecen la muerte. Un monstruoso gusano gelatinoso de miles de kilómetros que se retuerce en el centro del océano negro estelar.

3-Devorado y defecado.

Yo fui enviado para comprobar una historia que el culto de Dagón explicaba. Ellos creían que, quien tenía el honor de ser devorado por Ghisguth, no moría, sino que lo atravesaba y aparecía en otro lugar y otro tiempo. (Defecado, sea dicho de paso). ¿Un agujero de gusano, quizá?

4-Sangriento Regalo.

"Venerado señor primordial", le dije, una vez llegué frente a él, "¿me haría usted el honor de comerme y tragarme?". "Gustoso lo haría", respondió, "pero tal sacrificio por mi parte requiere un pago por su parte. Deberá traerme un cadáver de, al menos, cincuenta especies diferentes."

5-Beber Medusas de Antimateria.

Como los humanos matan moscas y los delusianos beben medusas de antimateria, yo dispongo de la vida de criaturas que, a mi juicio, no son conscientes. Cincuenta diferentes: insectos del vórtice Omega, arañas de agujeros negros, ballenas microscópicas que viven en casas encantadas, etc.

6-¿Me Recordarás si soy una Bola de Heces?

Agradecido por mi regalo sangriento, Ghisguth me tragó sin masticar. Convertido en una bola de heces, aparecí en otra galaxia, tres mil años más tarde.

Oda a Ghisguth.

1-Va vagar pel Cosmos.

Va sortir de l'oceà
i va vagar pel cosmos
fins que va trobar un forat
dins d'un sol.

2-Monstruós Cuc Gelatinós.

Els profunds el van acompanyar, consolant i benent-lo. Ell era el primer d'aquells que no avorrexien la mort. Un monstruós cuc gelatinós de milers de quilòmetres que es retorça en el centre de l'oceà negre estel·lar.

3-Devorat i defecat.

Jo vaig ser enviat per comprovar una història que el culte de Dagon explicava. Ells creien que, qui tenia l'honor de ser devorat per Ghisguth, no moria, sinó que el travessava i apareixia en un altre lloc i un altre temps. (Defecat, sigui dit de passada). Un forat de cuc, potser?

4-Sagnant Regal.

"Venerat senyor primordial", li vaig dir, un cop vaig arribar davant d'ell, "em faria vostè l'honor de menjar-me i empassar-me?". "Gustós ho faria", va respondre, "però tal sacrifici per la meua part requereix un pagament per part seva. Haurà de portar-me un cadàver de, al menys, cinquanta espècies diferents."

5-Beure Meduses de Antimateria.

Com els humans maten mosques i els delusianos beuen meduses d'antimatèria, jo dispo de la vida de criatures que, al meu parer, no són conscients. Cinquanta diferents: insectes del 'vòrtex Omega, aranyes de forats negres, balenes microscòpiques que viuen en cases encantades, etc.

6-Em Recordaràs si sóc una Bola de Femta?

Agraït pel meu regal sagnant, Ghisguth em va empassar sense mastegar. Convertit en una bola de femta, vaig aparèixer en una altra galàxia, tres mil anys més tard.
